

CRT PROJECTION TUBE OVERHAUL

CRT Projection Tube Overhaul

Thomas Electronics of Australia provides projection CRT overhaul services for simulator operators that deliver the highest levels of visual performance and market leading in service life. The overhauled CRT assembly is returned in “as new” condition, identical in form, fit and function to the original part with full warranty.

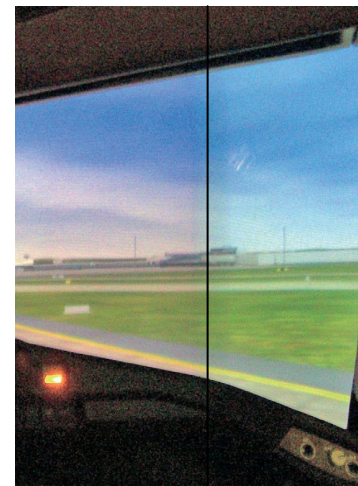

Simulator Display Systems

TEOA provides through life support, replacement CRT solutions (including parts), and parts obsolescence management services including (but not limited to) the following simulators:

- Commercial flight
- Military flight
- Weapons systems
- Land systems
- Crew Procedural training

Projection Tube Overhaul for CRT projectors

Cathode Ray Tube (CRT) projection systems provide the ultimate in visual fidelity.
